

KNOX[®]

When seconds matter[™]

PRODUCT CATALOG

WELCOME TO KNOX

Since 1975, the Knox Company has developed innovative rapid access solutions for first responders, with products that provide fast, safe and secure entry into commercial, industrial and residential properties; while minimizing damage and maximizing safety. Knox products are now available for use in a wide-range of applications and environments.

We're proud to now offer, the new Knox eLock System™ with technology that incorporates an innovative eKey that provides a cost-effective access control process to protect vital assets. It's designed for maximum security, access and complete accountability while delivering ruggedness and quality.

Products are assembled in the USA in a Phoenix, AZ facility. Knox is a woman-owned business.

More than 14,000 fire and law enforcement departments depend on Knox products to gain access into over one million buildings/properties.

RAPID ACCESS SOLUTIONS

Knox products minimize access delays to vital assets and reduce forced entry damages and injuries.

PERIMETER ACCESS KNOX PADLOCKS®

Quick access into secured multifamily property areas, community gates and temporary construction sites

INTERIOR ACCESS KNOX DOCUMENT CABINET™

Gain immediate access to hazardous material data, critical emergency response documents and interior keys

NARCOTICS CONTROL KNOX MEDVAULT®

Reduce drug diversion risks and increase controlled substance accountability with secure storage and access limited to authorized first responders

KEY CONTROL KNOX KEYSECURE®

The highest level of master key control and retention with flexibility, security and accountability

FDC PROTECTION KNOX STANDPIPE LOCK®

Safeguards discharge standpipes and wall hydrants ensuring operational integrity

PERIMETER ACCESS KNOX GATE & KEY SWITCH™

Overrides electric gates in residential communities, parking garages and industrial gated areas

POWER CONTROL KNOX REMOTE POWER BOX™

Remotely operate a shunt trip breaker to safely remove or isolate power from a building or equipment

INTERIOR ACCESS KNOX ELEVATOR BOX™

On-the-spot retrieval of elevator and interior keys

FDC PROTECTION KNOX FDC LOCKING CAPS

Locked FDC caps protect against damage, vandalism and debris

BUILDING ACCESS KNOXBOX® | KNOXVAULT®

Rapid access key boxes eliminate the need for forced entry, minimizing critical delays, injuries and property damage

SOLUTIONS

Every business and commercial building has its own unique set of access and security requirements and Knox has a multitude of solutions to meet your specific needs. Provide quick and secure access to your property with a Knox lock box, eKey, gate switch or padlock. Ensure sprinkler systems, standpipes and hydrants are ready when firefighters need them with FDC locking caps. And give first responders the ability to safely shutdown power equipment in an emergency with a power control box.

Trust Knox to protect your business, warehouse, campus or facility.

KEY CONTROL

eKey™ Models Available on Applicable Products

KNOX KEYSECURE® 6

The highest level of master key control and retention with flexibility, security and accountability can be found in the Knox KeySecure 6. Both a mechanical master key and eKey are locked and are only accessible by authorized users with valid PINs or temporary access codes. The KnoxConnect cloud based management system configures and manages the eLock System devices and users. It's the solution for your interior and exterior key management needs.

KnoxBox 3200 with eLock Core™

KeySecure® 6

Knox eKey™ and KnoxDock™

KEYSECURE® 6 COMPONENTS

KeySecure® 6

Key control device used for securing, programming and charging the Knox eKey and an option to secure a Knox mechanical master key.

Knox eKey™

Brings power to the eLock Core, and collects and stores information on key usage and box openings. As a security measure, the eKey won't function when pre-set timer expires.

KnoxDock™

Ideal for field reps and off-site staff; the KnoxDock charges and programs the eKey and syncs data to KnoxConnect from a PC computer.

Knox eLock Core™

The eLock core can be retrofitted into most Knox products and eliminates rekey costs resulting from lost keys.

FEATURES:

KnoxConnect's cloud based management system for eLock products, tracks keys/access, users and provides reports

WiFi or Ethernet-enabled

Secures 1 mechanical and 1 electronic master key

Charges the electronic key

Built Knox-Rugged to withstand extreme conditions

BUILDING ACCESS

KNOXVAULT® 4400

The 4400 gets first responders in your door quickly without causing costly door damages. It is the largest exterior rapid access key lock box available and can hold up to 50 standard-sized keys or a combination of keys, credentials, entry items and even a FDC wrench. The Tamper Alert feature with the recessed mount model provides additional security.

Recessed Mount in Black

Dimensions:
Recessed Mount: 9.5"H x 9.5"W Flange

Surface Mount in Black

Dimensions:
Surface Mount: 7"H x 7"W x 5"D

OPTIONS:

-  eKey and Mechanical Models Available
-  Knox Tamper Alert
-  Multi-Purpose Electrical Switch
-  Recess Mounting Kit for New Masonry Construction
-  Recess or Surface Mounting
-  Single or Dual Lock

CAPACITY:

Secures a combination of these items:

-  50 Keys
-  Access Cards
-  Entry Items
-  FDC Keywrench

COLOR OPTIONS FOR BOTH THE 4400 AND 3200:

-  Aluminum
-  Black
-  Blue - Law Enforcement ONLY
-  Dark Bronze

CERTIFICATION:

 **LISTED**

- UL 1037
- UL 437
- UL 1610
- UL 1332

This product has passed UL rigorous security testing.

KNOXBOX® 3200

The model 3200 is a smaller lock box than the 4400. It can hold up to 10 standard-sized keys or a combination of keys, credentials or other entry related items. For additional security, use the optional Tamper Alert feature and the recessed mount model.

Recessed Mount in Black

Dimensions:
Recessed Mount: 7"H x 7"W Flange

Surface Mount in Blue
(For law enforcement use only)

Dimensions:
Surface Mount: 4"H x 5"W x 3.75"D

OPTIONS:

-  eKey and Mechanical Models Available
-  Knox Tamper Alert
-  Multi-Purpose Electrical Switch
-  Recess Mounting Kit for New Masonry Construction
-  Recess or Surface Mounting

CAPACITY:

Secures a combination of these items:

-  Up to 10 standardized keys.*
-  Access Cards
-  Entry Items

*Four to six keys if using large keys or key tags

FDC PROTECTION

KNOX FDC LOCK™

Safeguard the integrity of your fire sprinkler system by protecting fire department connections (FDCs) from damage, debris and vandalism. Knox FDC Locks ensure vital high-pressure water connections are ready and functioning when needed by firefighters.

2.5" Diameter, Male Locking Cap with Swivel-Guard™ Enhanced Protection

2.5" Diameter, Male Locking Cap

1.5" Diameter, Male Locking Cap

KNOX STORZ LOCK®

Storz Locks protect large diameter FDCs to ensure reliable water connections and prevent fire hydrant water loss or theft.

5" Diameter

4" Diameter

KNOX STANDPIPE LOCK®

Protect the discharge side of wet and dry standpipes with the heavy-duty Knox Standpipe Lock. The brass threaded stainless steel cap locks into place to ensure a reliable connection and strong water pressure.

2.5", Female Locking Cap

NARCOTICS CONTROL

KNOX MEDVAULT®

Reduce drug diversion risks and increase controlled substance accountability with secure storage and access. Data gathering is streamlined for regulatory and licensing compliance reporting. Control access through use of authorized PIN codes. The MedVault and MedVault Mini are excellent in health clinics, schools and other environments where controlled substances must be secured.

Large Capacity
Recessed Mount

Exterior Dimensions: 10.75"H x 14.12"W x 10"D
Interior Dimensions: 8.75"H x 11.25"W x 6.62"D
Available in both recessed and surface mount options.

Small Capacity
Surface Mount

Exterior Dimensions: 6.75"H x 9"W x 6.5"D
Interior Dimensions: 6.25"H x 8.5"W x 3.12"D
Available in both recessed and surface mount options.

Suitable for:

FEATURES:

-  KnoxConnect's cloud-based management system for eLock products, tracks keys/access, users and provides reports
-  WiFi or Ethernet-Enabled
-  Automatically connects to network for upload of transaction history
-  Available with swing or drop down door
-  Records and stores up to 16,000 events
-  Holds up to 5,000 unique PIN codes
-  High security door status monitor

PERIMETER ACCESS

eKey™ Options Available

KNOX PADLOCKS®

Limit access and increase security to construction sites, storage areas and other important locations with Knox perimeter solutions. These padlocks utilize the same master key used with the Knox Rapid Access System.

Exterior heavy-duty padlocks (Models #3781, 3782, 3783) are built with a stainless-steel shackle and provide ingress on pedestrian gates, storage areas and into gated communities. The shrouded all-weather padlock (Model #3784) provides additional security against pry and cut attacks.

INTERIOR ACCESS

KNOX DOCUMENT CABINET™

The Document Cabinet secures keys (up to 231), floor/evacuation plans, SDS and HAZMAT info and more in an easy to access location. The optional Knox Tamper Alert provides a higher level of security and the dual lock feature delivers access to both first responders and facility managers.

COLOR OPTIONS:

Dual Lock Document Cabinet

Dimensions:
18"H x 14.5"W x 7"D

KNOX ELEVATOR BOX™

Designed for lobby use, first responders have immediate access to the calibrated elevator drop key(s) and other keys to access critical interior areas. The Knox Tamper Alert provides a higher security level.

Only Available in Red

Elevator Box in Red

Dimensions:
10.5"H x 7.5"W x 2"D

The Elevator Box is available in two models to meet jurisdictional code labeling requirements

COLOR OPTIONS:

OPTIONS:

-  Knox Tamper Alert
-  Single or Dual Lock
-  Expansion Swing Panel for Additional Keys

CAPACITY:

Secures a combination of these items:

-  Up to 231 Keys
-  Access Cards
-  Floor Plans
-  Safety Data Sheets (SDS)
-  HAZMAT Data

Recessed Mount: 9.5"H x 9.5"W Flange

SOFTWARE

KNOXCONNECT™ SOFTWARE LICENSE

The KnoxConnect Management System is a cloud-based system used to program and manage eLock devices and users. It provides the ability for administrators to program devices, update PIN codes, authorize users, deactivate keys, view device status and create comprehensive audit trail reports from the web. Devices communicate to authorized networks to automatically upload transactions and download PINs and other updates.

FEATURES:

-  Supports mechanical and eLock systems
-  Cloud or locally* hosted
-  Automatic updates
-  Enterprise security

*Limited functionality

KNOX SECUREPIN™

Engineered to the highest level of flexibility, security and accountability, Knox SecurePIN™ delivers the next generation of key access, allowing dispatchers to grant temporary access to keys without requiring personal codes or management of personnel in the software system.
