KNOX DUAL LOCK RELEASE FORM

First Responder/Agency Name:	Date:
System Code:	

A dual lock product has two keyways where the top is always keyed to the primary responding agency. The bottom keyway can be keyed for mutual aid access (another responding department) or for the property owner. The department must have a dual lock release form on file to approve or deny dual locks within their jurisdiction. The department can restrict and only allow specific entities to be the secondary system code.

Please check one of the following options:

☐ **YES**, we will approve Dual Lock Knox Products in our jurisdiction. 1st lock can be keyed for First Responder/Agency access and 2nd lock can be keyed for another First Responder/Agency or Property Access (depending on the situation).

☐ **NO**, we will not approve Dual Lock Knox Products in our jurisdiction. We, the First Responder/Agency prefer to be the only ones with access to the Knox Products in our jurisdiction.
