

## Secure Elevator Key Storage

Model #1453 Shown

4 key hooks hold up to 8 keys

The Knox® 1450 Mini Elevator Key Box is designed specifically for the elevator lobby. The Knox Elevator Key Box provides the same quality and reliability as the standard size 1400 Series Elevator Key Box. Also, the Mini Elevator Key Box can be keyed to your existing Knox System allowing you to carry only one key for your jurisdiction.

The Knox 1450 Series Mini Elevator Key Box is UL 1037 listed. This new mini elevator key box is for standard key storage only and offers a lower profile than the standard Knox-Box, making it a more attractive choice for lobbies, elevator corridors and other narrow interior passages. It comes with 4 key hooks that hold up to 8 standard keys. The mini elevator key box is available with an optional UL listed tamper switch. Due to the heavy-duty design of the new key box, it is far stronger than the average aluminum key box. When properly mounted, this UL listed key box offers superior resistance to physical attack. The Elevator key box can be ordered with or without the "FIRE DEPT. USE ONLY" banner in Red, Aluminum or Bronze. Black is only available without the banner.

**Dimensions:** 8-1/2" H x 5" W x 2" D

**Weight:** 9 lbs

**Material:** 10 gauge steel housing; 10 gauge steel door

**Color:** Deep Red, Dark Bronze and Aluminum colors available with or without the "Fire Department Use Only" banner. Black only available without the banner.
