

SECURE ACCESS SOLUTIONS

PROVIDING AUTHORIZED AND
SECURE INGRESS TO AIRPORT PERSONNEL

SECURE AND ACCOUNTABLE

Airports have unique access and security requirements. The Knox eLock System® brings control and accountability to more areas, augmenting existing security. With its unique ability to share access directly with first responders, it offers a critical component to support quick and accountable entry for day-to-day needs and during emergency events.

KEY CONTROL

KNOX eKEY®

The Knox eKey powers the eLock core and is the electronic master key used to open Knox electronic products.

KNOX KEYSECURES AND KNOXDOCK®

These devices secure, charge and program eKeys. The eKey is assigned to a user when their PIN is entered, allowing a single key to be shared by multiple users while maintaining full user accountability.

KNOX KEYDEFENDER™

These devices secure, charge and program eKeys. The eKey is assigned to a user when their PIN is entered, allowing a single key to be shared by multiple users while maintaining full user accountability.

BUILDING ACCESS

ELECTRONIC KNOXBOX® 3200 / ELECTRONIC KNOXVAULT® 4400

Securely store essential keys in proximity to their point of use, to ensure they're continually available. Provide rapid access to keys for concession areas, concourse gates, and more.

DOOR ACCESS

KNOXLOCK® MORTISE CYLINDER

Retrofit cylinders on interior or exterior doors where mortise locks are used.

KNOXLOCK® SFIC

The KnoxLock Small Format Interchangeable Core (SFIC) is an electronic lock core that takes existing hardware to the next level of access control and accountability.

PERIMETER ACCESS

ELECTRONIC KNOX PADLOCK®

Secure and access manually-operated gates in permanent and temporary locations.

KNOX ELECTRONIC GATE CONTROL

The KnoxBox houses a SPST switch to trigger electronic gate operation.

FDC PROTECTION

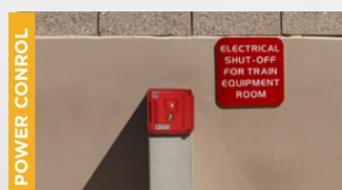

KNOX FDC LOCKING CAPS AND STANDPIPE LOCKS

Safeguard fire sprinkler systems from damage and vandalism to ensure high-pressure water connections are ready when needed.

POWER CONTROL

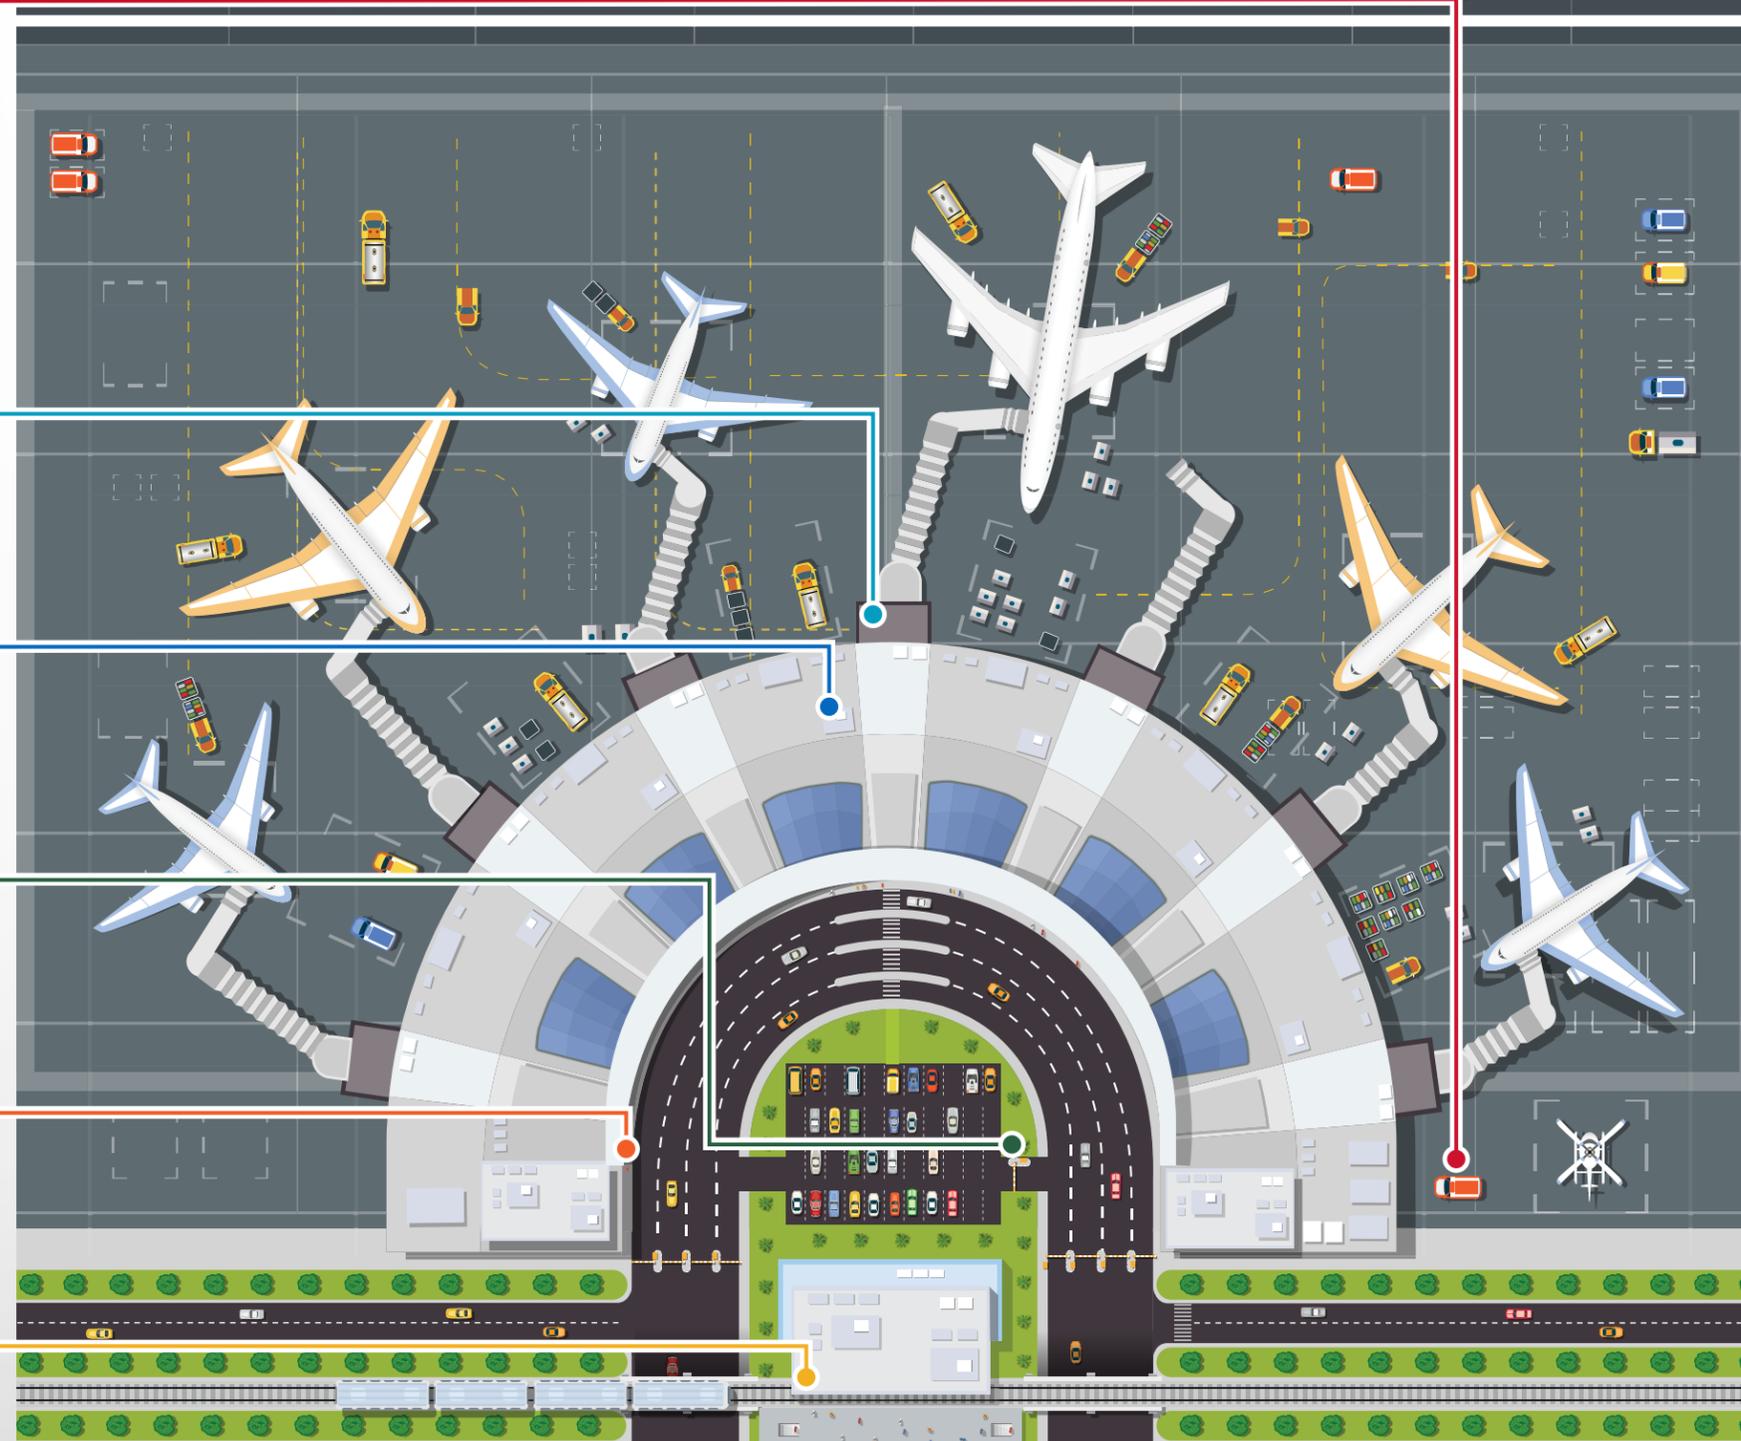

KNOX REMOTE POWER BOX®

Disconnect or isolate electrical power to a building or equipment, HVAC controls, industrial equipment, photovoltaic/solar powered systems, and EV charging stations.

EASILY KEEP KEYS CONTROLLED

KnoxConnect Cloud and the Knox eLock System provide industrial grade electronic keys, locks and key control for rapid, reportable access when and where it's needed

ABOUT THE KNOX COMPANY

Since 1975, the Knox Company has successfully developed innovative rapid access solutions for first responders with products that provide fast, safe, and secure entry into commercial, industrial, and residential properties, while minimizing damage and maximizing safety. Today, more than 15,000 fire, EMS, and law enforcement departments/agencies depend on Knox products to gain access into over one million buildings/properties. The same technology trusted by first responders is now available for airports.
