## EXTERIOR PADLOCK FEATURES AND BENEFITS

Knox Exterior Padlocks are operated with the same Knox Master Key used for other Knox Rapid Access System devices. The exterior, heavy-duty Knox Padlock (Model #3770) with a stainless steel shackle is designed for securing perimeter or fire access gates, industrial equipment yards, residential storage areas, temporary construction sites, city/town fields, gated communities, etc. The shrouded all weather padlock (Model #3772) provides additional security against pry and cut attacks.

- ✓ Rust free, all-weather stainless steel shackle
- ✓ Shackles are thicker than most standard padlocks
- ✓ Heavy-duty lock design and solid brass body resists pull attacks
- ✓ Lock and body cover protects padlocks from harsh weather conditions and outdoor sprinkler systems
- ✓ Lock cylinder has a UL 437 rating not offered by most padlock manufacturers
- ✓ Authorized agency identification labels available: Fire (red), EMS (white), Police (blue), Sheriff (gold), Security (white)

## INTERIOR PADLOCK FEATURES AND BENEFITS

The Knox interior padlock (Model #3771) is designed to secure fire sprinkler control systems, hazardous chemical supplies, restricted utility areas and equipment lockers. The UL® listed padlock resists pull attacks.

- ✓ Hardened steel shackle; 5/16" diameter shackle fits on a wider range of interior hasps
- ✓ Heavy-duty lock design and steel body resists pull attacks
- ✓ Lock cylinder has a UL 437 rating not offered by most padlock manufacturers
- ✓ Authorized agency identification labels available: Fire (red), EMS (white), Police (blue), Sheriff (gold), Security (white)

Typical application showing the Knox padlock daisy chained with the property owner's padlock allowing entry by either party.

## ABOUT KNOX COMPANY

Over forty years ago, a unique concept in rapid access for emergency response was born. The KnoxBox®, a high-security key lock box, was designed to provide rapid access for emergency responders to reduce response times, minimize injuries and protect property from forced entry.

Today, one revolutionary lock box has grown into a complete system providing rapid access for public safety agencies, industries, military, and property owners across the world. The Knox Company is trusted by over 14,000 fire departments, law enforcement agencies, and governmental entities.
