

Emergency medical narcotic access can be controlled and its access audited with the Knox MedVault®. Authorized personnel must input their unique PIN code in order to access the controlled substances. An audit trail showing the time, date and PIN code is recorded each time the Knox MedVault is opened. Two sizes are available to accommodate different space and storage needs. The larger capacity is designed and constructed for mounting in a rescue vehicle while the smaller capacity is perfect for those who need the security but lack the space for the full size unit.

## FEATURES

- ✓ Secure PIN-controlled access (holds up to 5,000 unique PIN codes)
- ✓ Audit trail stores up to 16,000 events
- ✓ Dual authentication enabled
- ✓ Manual Override Key
- ✓ Keypad access with LED display
- ✓ Can be mounted in rescue vehicles or stationery applications
- ✓ Manage MedVault with Knox Administration Software to add/delete users, pull user access records

## BENEFITS

- ✓ Prevents drug diversion
- ✓ Allows keyless entry
- ✓ Monitors user access with audit trail

## OPTIONS

- ✓ Available in two sizes (large or smaller capacity) to accommodate different space and storage needs
- ✓ USB or WiFi/Ethernet connectivity to pull audit trails
- ✓ Mounting options: recess, surface, or floor mount configurations
- ✓ Interior LED Lamp

## ABOUT KNOX COMPANY

Over forty years ago, a unique concept in rapid access for emergency response was born. The KnoxBox®, a high-security key lock box, was designed to provide rapid access for emergency responders to reduce response times, minimize injuries and protect property from forced entry.

Today, one revolutionary lock box has grown into a complete system providing rapid access for public safety agencies, industries, military, and property owners across the world. The Knox Company is trusted by over 14,000 fire departments, law enforcement agencies, and governmental entities.
