**EMERGENCY PREPARATION, ALL IN ONE BOX**
With larger buildings come even larger challenges. First responders need to quickly retrieve critical facility keys and information to get access in and out of a property. The Knox Emergency Cabinet securely and conveniently store up to 231 keys and/or access cards, facility floorplans, critical documents, facility floorplans, evacuation plans, and Hazmat data – all in one place.
HAZMAT & SDS INFORMATION STORAGE
All units meet SARA III requirements for storing all current hazardous material information at industrial or commercial sites.

EMERGENCY KEY STORAGE
Up to 231 keys and/or access cards are accessible to first responders for immediate, non-destructive entry into high-rise buildings and large facilities.

DUAL-LOCK SYSTEM FOR CONTENT MAINTENANCE
Two locks on a Knox Emergency Cabinet provide first responders emergency access by using their Knox Master Key and also gives facility managers easy access to update emergency documents and entrance keys.

ABOUT KNOX COMPANY
Over forty years ago, a unique concept in rapid access for emergency response was born. The Knox-Box®, a high-security key lock box, was designed to provide rapid access for emergency responders to reduce response times and protect property from forced entry.

Today, one revolutionary lock box has grown into a complete system providing rapid access for public safety agencies, industries, military, and property owners across the world. The Knox® Company is trusted by over 14,000 fire departments, law enforcement agencies, and governmental entities.
