

KNOX[®]
When seconds matter™

LAW ENFORCEMENT

KNOX RAPID ACCESS SOLUTIONS

Law enforcement agencies need quick and unobstructed access during an emergency. Barriers such as doors or gates can delay an officer's response when emergency access is most critical. Providing safe, rapid access to commercial properties, gated facilities, and residential areas with one master key, the Knox Master Key unlocks a system of tools designed to eliminate barriers, reduce response time, and minimize injury and loss.

GAIN SAFE, RAPID ACCESS WITH ONE MASTER KEY

PERIMETER & GATE ACCESS

Knox Gate & Key Switches™ and **Knox Padlocks™** can immediately open electrical and manual gates, fences, or similar barriers, without the use of force or damage to property. Departments who use a **Knox Master Key** have the advantage and capability to carry out safer, faster, and more efficient emergency responses for their officers.

INTERIOR ACCESS

With larger buildings come even larger challenges. First responders need to quickly retrieve critical facility keys and information. The **Knox Document Cabinet™** can securely and conveniently store up to 231 keys, facility floorplans, Hazmat data, emergency documents, and evacuation plans—all necessary functions for immediate and safe access in and out of a property.

MASTER KEY SECURITY

Your department's master key is safely guarded by the **Knox KeySecure®** to protect the Knox Rapid Access Solutions system. The master key is locked until the authorized PIN code permits the release of the key. Each system generates a verifiable audit trail for ultimate accountability.

**KNOX
PADLOCK™**

**GATE &
KEY SWITCH™**

**KNOXBOX® 3200 /
KNOXVAULT® 4400**

HOW KNOX WORKS:

1 KNOX PADLOCK™

 A **Knox Padlock** may be used to secure perimeter gates, allowing access only during emergencies.

4 KNOX DOCUMENT CABINET™

 For indoor usage, the **Knox Document Cabinet** house critical emergency response documents, master plans, keys, and access cards.

2 KNOX GATE & KEY SWITCH™

 Override electrical gates to allow emergency response vehicles quick entry to properties equipped with the **Knox Gate & Key Switch**.

5 KNOX KEYSECURE®

Knox KeySecure® units are kept inside first responder vehicles for easy access to the master key. Only authorized PIN codes can release the key.

**3 KNOXBOX® 3200 /
KNOXVAULT® 4400**

 For emergency access into buildings, keys and access cards are stored within a **KnoxBox 3200 or KnoxVault 4400** at main and rear entrances.

ABOUT KNOX COMPANY

Over forty years ago, a unique concept in rapid access for emergency response was born. The KnoxBox®, a high-security key lock box, was designed to provide rapid access for emergency responders to reduce response times and protect property from forced entry.

Today, one revolutionary lock box has grown into a complete system providing rapid access for public safety agencies, industries, military, and property owners across the world. The Knox Company is trusted by over 14,000 fire departments, law enforcement agencies, and governmental entities.
